

Prophetic Call for Preaching the Uncompromising Word of God to the Knanaya Community

(“The harvest is plentiful, but the laborers are few.” (Luke 10:2))

The Lord our God wishes to communicate this message to Knanaya Community of Kottayam Diocese, who defies his teachings and his directives send through the congregation of Oriental Churches in Vatican. This is being communicated by Knanaya Reform Movement (KRM) through inspiration of the Holy Spirit.

“My dear children, there is an urgent need for preaching the uncompromising word of God to the Knanaya community. You are a defiant people and you defy my teachings and me. You persecute your own brothers who marry partners that I choose for them. You reject and persecute the children who are baptised and made clean by my grace and blessings. You expel them from my church and deny them marriages sacraments and baptism to their children. You spent the money collected from the faithful to expel my children from my church by filing cases against them in civil courts. I have been watching your arrogance and persecution of the innocent with your man made laws on endogamy. I have been silent for so long and can no longer be silent for I have heard the cries of the wounded Knanaya children whom you persecute.

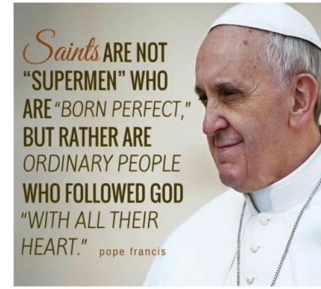

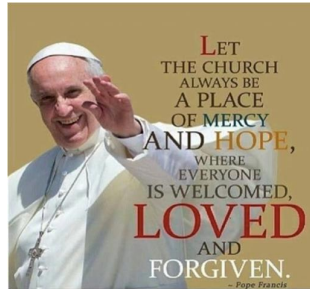

It was I who inspired the Holy Father to listen to the cries of all the wounded families all over the world. The Holy Father organised the Vatican Family Synod and sent out questionnaire to my church all over the world. I instructed all the Bishops and archbishops all over the world to open their ears and listen to the sufferings of the wounded families all over the world. Yet not one Bishop or Archbishop in Kerala ever listened to the cries of the wounded families in Kerala in spite of several attempts by these wounded families to wake up the Bishops and Clergy in Kerala. The pleas and petitions of these wounded families were never given an attention by the clergy or Bishops, as the wounded were small in numbers. But I have heard the cries and petitions of these wounded Knanaya families in Kerala and the rest of the world. I therefore declared the year of Mercy

through the Holy Father to give an opportunity for the wounded families to directly offer their sufferings and pain to me.

Jubilee of Mercy

Jubilee Year of Mercy Declared by Holy Father to listen to the wounded families

During the year of Mercy the wounded families from all over the world posted their answers to questionnaire send by the Vatican Family Synod. My Cardinals and the servant of servants in Vatican listened to all the wounds and sufferings of all the families. They also listened to their proposed solutions to overcome the problem and their sufferings. One of the problems that came to notice of Vatican was the cry of the wounded Knanaya families all over the world for being expelled from my church due to blood purity and marriage to spouses that I chose for them who do not belonging to Knanaya community.

It was I who inspired the Vatican family Synod and Holy Father to appoint a one-man commission to investigate the evil acts of persecution of the Knanaya clergy of Kottayam diocese. For more than two years the Bishop appointed by the Holy See met all sections of Knanaya community including ordinary wounded families, priests, bishops and leaders of the Knanaya community and listened to all their point of views from their side. Bishop Michael Mulhal after studying all the points of views and suggestions for overcoming the situation prepared a report and submitted it to the Holy See.

One-man Commission listening to the cries of the wounded families at Mt. St. Thomas Kakkanad in 2016 on behalf of the Holy See.

Now that the report on Knanaya community has been prepared and submitted to Vatican it is time for me to take action on the Knanaya community. I have ended my silence and have already begun to act through Vatican. I have inspired Cardinal Leardano Sandri to send the letter to Your Archbishop and Archbishop Angadiath in USA. In that letter I gave directives to the Knanaya community to follow so as to receive my blessings. I even inspired Cardinal Sandri to tell your Bishop and your community to be a Christian first and listen to the teachings

given to them in the scriptures. This directive is my first directive given for the Knanaya community to follow and obey just like how I gave the directives to the Egyptian Pharaoh through Moses.

Whenever the Jewish people worshiped other Gods and disobeyed me I have destroyed them directly or indirectly

In the past I have always been with my chosen Jewish people and have always been with and directing them through the prophets that I have appointed from amongst them. I have always been with them and protected them over other communities for they were my people. But many times they have taken me for granted and become proud because I loved them over other communities. Let me remind the Knanaya community that I loved the Jewish community not because they were of pure bloodline, but I loved them because they obeyed me and listened to my voice through my appointed prophets and religious men who were in constant communion with me. You were once upon in communion with me and listened to me and to my directions for the community. Today the Knanaya community is not any more in union with me and do not listen to me anymore and I am not at all pleased with the community.

When Moses went up to Mount Sinai to meet me and I gave my ten commandments, the Jewish people rebelled against me and built an Idol to worship instead of worshiping me and rejected me. I was so angry full of rage and wanted to destroy my people who were dancing in front of the golden calf that they built. If it were not for the intervention of Moses, I would have destroyed them for rejecting and disobeying me and worshiping their idol instead of me. Today it is a similar situation with you Knanaya people. You have rejected my teachings and me. Instead of welcoming my children from all dioceses you worship the “Kna” spirit as your idol that you have created. You listen to the “Kna” spirit instead of me and expel all those who do not listen to the “Kna” spirit for practicing endogamy, from your community and your church. You want to reverse the findings of Bishop Mulhal report submitted to the Holy See to be favorable to your community. You refuse to obey the directives of Cardinal Leardano Sandri through whom I gave my directives to your community. The hardliners of the community want to burn this directive in public and your Bishop openly disclosed not to obey my directives. You and your Bishops along with your selected members go all the way to Vatican stating that you will not obey my

directives. Yet again I advised your bishop and delegation to be Christians first before you can make any other proposals to me.

If it were not for the prayers of some of your own people whom you are trying to expel through civil courts, I would have destroyed your community, as I would have the Jewish people who disobeyed me in Sinai desert. I no longer will be with you and speak to you for you do not listen to me. I shall convey my displeasure about your community through the people you have expelled from your community and is currently trying to expel through the courts. I shall speak through them to correct your ways and prophesy about your community through them. Do you think you can expel them through a court verdict when I myself defend them in the Indian courts? No you will never be able defeat them in court to expel them for it was I who created them to be my witnesses in court so that the whole Nation will know that I am the Lord your God whom you disown. For your disobedience to the directives given by Cardinal Sandri, your Bishop will be drawn to court by them and will give false witness regarding me and I shall deliver my final judgment about you in courts..

“Be silent Knanaya people of the distant coast land, get ready to present your case in court, you will have your chance to speak, let us come together and decide who is right. (Isaiah 41/1)”. I will be watching whether your Bishop will testify for me or against me in court. I will watch whether your Bishop will lie or tell the truth in court about my teachings and me, like your predecessor Bishop denied my teachings in court. I will watch if your Bishop will listen to the Knanaya people influenced by the “Kna” spirit and will testify in court that it is an insult to the Knanaya community to bless the marriage of Knanaya members to non-Knanaya spouses that I choose for them. I will watch if your Bishop will testify that the all teachings in the Bible are not divine laws as your predecessor Bishop testified in court. There is no more chance to escape or delay for testifying in court, as I will not permit this. It has to take place as I have prophesied it would happen through my prophets in the Old Testament. I have already selected the advocates to cross-examine your Bishop. So get ready to present your case in court. Isaiah 41/1.

I love the Knanaya people whom you have expelled and trying to expel even now through the Indian civil courts. They listen to me unlike you. I love them for that. It is their prayers that I listen to as it comes from their heart. They do not have anything against your community who are under the spell of “Kna” spirit. They want to set your community free from the “kna” spirit and to reject the “kna” spirit so that they will be baptized in the Holy Spirit. It is because of the prayers of those whom you rejected and expelled that I have decided not to cast my curse on your community. I have decided to give your community another chance.

The Knanaya members whom your community expelled and those who are not under the “Kna” spell in your community will join hands to form a new community obedient to me. They will organize a global Knanaya harvest to gather all Knanaya people all over the world who are not under the bondage of “kna” spirit. For this I will need preachers who will preach the uncompromising word of God to

set them free from bondage to the “Kna” spirit. The Holy See in Vatican will provide these preachers with blessing to boldly proclaim the directives of Cardinal Sandri and to teach the Knanaya community on how to be a true Christian. The expelled Knanaya people and those Knanaya members not under “Kna” bondage will come together with the sole purpose of setting the Knanaya people free from bondage to “Kna” spirit, so as to abide in me listening to my teachings of accepting all. Vatican will help to organise special retreats to this community for healing the wounds inflicted by your community by expelling them. At the same time I will also forgive and heal all those priests, Bishops and lay people who will repent for their sin of having expelled & been responsible for expelling your Knanaya brothers. The preachers and healers chosen by me will be given an opportunity to study the Bishop Mulhals’s report. They will also be given special approval by Vatican to preach against the practice of endogamy quoting my teaching in the bible against the practice of endogamy and expulsion from community and church membership.

Prophetic Judgement against the Knanaya community will be passed in High Court and Supreme Court in India as Prophesied in Isaiah 43/8-10

All these will happen after I proclaim my verdict through the Indian Civil courts as I have prophesied in Isaiah 43/8-10. You have to decide if you want my judgment from High Court or from Supreme Court. You no longer have any choice to withdraw from civil courts till I decree my final verdict about your community. So be ready to prepare the way for my preachers to harvest Knanaya people from your community whom you have kept under the “Kna” Bondage using your man made personal jurisdiction law. Set these people free from “Kna” bondage to be baptized in the Holy Spirit. After baptism of the Holy spirit by these preachers you and your Bishop will welcome all your brothers that you have expelled from your community along with their children to be members of my Church. I will pass a decree in the Indian Civil courts before all that will happen.

A Prophecy for Changing Times
Inspired by the Holy Spirit
